

Restore Medicaid coverage for Arizona transplant patients today!

Because of budget cuts, Gov. Jan Brewer ended Medicaid funding for end-of-life transplants, leaving 98 people without a way to get transplants vital to their survival.

Although there are bills in both the AZ House and Senate that would restore coverage by ending a corporate tax credit, Republicans are not making any effort to fix this problem.

These petitions will be presented to AZ legislators to let our lawmakers know we support saving lives. Help by signing this petition today!
